Keysight Technologies, Inc. Statement on AS9100

Keysight Technologies, Inc. recognizes the importance of AS9100 certification to our aerospace and defense customers. In February 2016, Keysight executives made the decision to obtain certification of the latest revision of the AS9100 standard (Rev D) at the earliest opportunity.

We are pleased to communicate that as of May 2017, Keysight is externally certified to AS9100 (Rev. D). This certification is in addition to our existing certificates for ISO9001:2015, ISO17025:2005, and ISO14001:2004.

If you would like additional information about Keysight's AS9100 certification process or Keysight's Aerospace and Defense program, please contact [Todd Harmon](#).

Additional information about Keysight's overall quality program is available at <http://about.keysight.com/en/quality>.
