Keysight Technologies, Inc. Continuous Improvement Overview

Keysight earns customer loyalty by providing products, solutions, services, and interactions of the highest quality and greatest value. Our continuous improvement culture is a key component of Keysight's Leadership Model (KLM), designed to continually deliver greater value to our customers.

Lean/Six Sigma has been adopted as methodologies for improving the quality of Keysight processes and products. This set of tools and methodologies are utilized to address a variety of Keysight business processes to achieve continuous incremental improvements and breakthrough results. Keysight applies Lean/Six Sigma to product design and development, as well as manufacturing, sales, services, and support functions to reduce process complexity and defects, increase efficiencies, and drive customer success.
